PROJECTS

- **Netflix Clone:** <https://github.com/Essietasha/Netflix-Clone-React.js>
Developed a Netflix-like app using React, incorporating features like dynamic movie categories, user-specific movie lists, and modal dialogs for user interactions. Utilized Context API to manage state and implemented a custom movie selection functionality.
- **Urban Cafeteria:** <https://github.com/Essietasha/Urban-Cafeteria>
Built a demo e-commerce platform with product listings, a shopping cart, and a checkout functionality using React. Integrated Redux for state management, allowing for the global handling of shopping cart and user data.
- **Weather App:** <https://github.com/Essietasha/Weather-App-React.js>
Created a weather forecasting application using React and the OpenWeatherMap API to fetch and display real-time weather information based on user input.
- **Events Management App:** <https://github.com/Essietasha/50-Projects-React.js/tree/main/Events%20Manager/events-manager>
Developed a full-featured events manager app with React that allows users to create, view, update, and delete events.
- **Project Management App:** <https://github.com/Essietasha/50-Projects-React.js/tree/main/Project%20Management%20App>
Created a project management app using React which allowed users to create, edit, delete, and add sub tasks using React for dynamic interaction.
