PROJECTS

- **Netflix Clone**: https://github.com/Essietasha/Netflix-Clone-React.js
  Developed a Netflix-like app using React, incorporating features like dynamic movie categories, user-specific movie lists, and modal dialogs for user interactions. Utilized Context API to manage global state and implemented a custom movie selection functionality.

- **Urban Cafeteria**: https://github.com/Essietasha/Urban-Cafeteria
  Built a demo e-commerce platform with product listings, a shopping cart, and a checkout functionality using React. Integrated Redux for state management, allowing for the global handling of shopping cart and user data.

- **Weather App**: https://github.com/Essietasha/Weather-App-React.js
  Created a weather forecasting application using React and the OpenWeatherMap API to fetch and display real-time weather information based on user input.

- **Events Management App**: https://github.com/Essietasha/50-Projects-React.js/tree/main/Events%20Manager/events-manager
  Developed a full-featured events manager app with React that allows users to create, view, update, and delete events.

- **Project Management App**: https://github.com/Essietasha/50-Projects-React.js/tree/main/Project%20Management%20App
  Created a project management app using React which allowed users to create, edit, delete, and add sub tasks using React for dynamic interaction.

PERSONAL

NATIONALITY: Nigerian

GENDER: Female

LANGAUGE: English (Fluent)

INTERESTS

Open-source contribution, problem-solving challenges and continuous learning in the JavaScript ecosystem.
