PROJECTS

- **Techive Blogpost**: https://github.com/Essietasha/Techive **URL:** https://essietasha.pythonanywhere.com
  Techive is a dynamic and fully functional Python-driven blog-post website developed using Flask and SQL. It offers a platform for content creation, management and exploration. Designed to cater to both creators and readers, Techive includes a range of feature like user authentication for a secure sign-up, login, and logout functionality to ensure privacy and personalized experiences, content management to enable users create, edit, and delete their posts with ease and post exploration which allows viewing all posts, browsing posts by categories, and searching for specific content.

- **Netflix Clone**: https://github.com/Essietasha/Netflix-Clone-React.js
  Developed a Netflix-like app using React, incorporating features like dynamic movie categories, user-specific movie lists, and modal dialogs for user interactions. Utilized Context API to manage global state and implemented a custom movie selection functionality.

- **Urban Cafeteria**: https://github.com/Essietasha/Urban-Cafeteria
  Built a demo e-commerce platform with product listings, a shopping cart, and a checkout functionality using React. Integrated Redux for state management, allowing for the global handling of shopping cart and user data.

- **Weather App**: https://github.com/Essietasha/Weather-App-React.js
  Created a weather forecasting application using React and the OpenWeatherMap API to fetch and display real-time weather information based on user input.

- **Events Management App**: https://github.com/Essietasha/50-Projects-React.js/tree/main/Events%20Manager/events-manager
  Developed a full-featured events manager app with React that allows users to create, view, update, and delete events.

- **Project Management App**: https://github.com/Essietasha/50-Projects-React.js/tree/main/Project%20Management%20App
  Created a project management app using React which allowed users to create, edit, delete, and add sub tasks using React for dynamic interaction.

PERSONAL

NATIONALITY: Nigerian

GENDER: Female

LANGAUGE: English (Fluent)

INTERESTS

Open-source contribution, problem-solving challenges and continuous learning in the JavaScript ecosystem.
